By the close of the Indian Wars in the late 19th century, fewer than 238,000 indigenous people remained, a sharp decline from the estimated 5 million to 15 million living in North America when Columbus arrived in 1492.

Maiden voyage

On 10 August 1628, Captain Söfring Hansson ordered Vasa to depart on her maiden voyage to the naval station at Älvsnabben. The day was calm, and the only wind was a light breeze from the southwest. The ship was warped (hauled by anchor) along the eastern waterfront of the city to the southern side of the harbor, where four sails were set, and the ship made way to the east. The gun ports were open, and the guns were out to fire a salute as the ship left Stockholm.

Swedish history in English

Slideshows exist that are 40,000 years old! The image came before language. The combination of image and text teaches more effectively than just tests or images. That's why I have put over 4,000 slide shows about history on the Internet.

Here in this database are most of these slide shows. 96% are free in this database. PDF files can be downloaded to your computer.

There are also audio books and films. Languages that appear are Swedish, English, Spanish, French and Danish.

Guinness World Records has no record of the most slide shows made by one person and about history. This collection may be the most extensive in the world.
